Portage Lions Club

September 23, 2023

Dear Milo Parker, Children's vision screening
District 27 D1

The Portage Lions have been doing children's vision screening since 1999 & maybe earlier. We have screened on the average of 450 to 500 children each year. We have owned our own screener whether photo screener or digital. Our current device is the "Spot" screener. Recently we needed our unit upgraded & maintenance work to be done. The enclosed bill reflects the work done & costs. We have contributed to the District for Children's vision screening since inception. We did not take advantage of the LCIF grant a few years ago, as we already had our Spot device.

Now with the upgrading & repair, we are requesting your favorable consideration in payment of the enclosed bill.

Your favorable consideration will be appreciated.

Sincerely, in Lionism,

Emil M. Mravik
