

# Join Us for the 1st-Ever **LIONS COMMUNITY SERVICE DAY!**

## **Saturday, April 26**

On April 26th, Lions across 27-D1 will come together for the First-Ever Lions Community Service Day. This is your club's opportunity to showcase the power of service and make a real difference in your community.

With Earth Day (April 22) just days before, we encourage clubs to focus on environmental projects that contribute to a healthier planet. Here are a few ideas to inspire your planning:

- Tree Planting or Community Cleanups
- Recycling Drives
- Creating Pollinator Gardens
- Educational Events on Environmental Sustainability

Next Steps for Your Club:

### **1. Decide on a Project**

Think about the needs of your community and your members' strengths. Choose a project that will make the most impact & that you can invite the community to participate in!

### **2. Share Your Plan**

Once your project is decided, complete the form @ <https://bit.ly/ServiceDay25> so that the District can help promote your event and provide resources to make it a success.

### **3. Start Planning**

Gather your team, secure materials, and get ready to serve with pride!

### **Stay Tuned!**

More details and promotional materials will be provided soon. For now, it's time to decide and start planning!

Let's make history together on April 26th and show our communities what it means to be a Lion.

**ONE DAY.  
ONE COMMUNITY.  
HUGE IMPACT.**
